

LPFM versus FM Translators - We listen to K-Love on 88.9 in Norman. It has been a wonderful encouragement and comfort to us during our daily activities. It has had a wonderful influence on our teenage daughter. It is the only radio station we feel safe listening to because of the content on so many other stations. My husband is in Albuquerque taking care of his dying brother. He called and told me that he found K-Love on the radio there. It has helped him tremendously during this difficult situation. K-Love is also involved in activities that help this community. I do not want to lose this station. Thank you for your time and interest.
